SECRETARIES MEET AT SOUTH OMAHA

Edgerton Announces that the Matter to Be Determined Relates to the Minimum Weight of a Carlond.

Secretaries J. W. Edgerton, J. C. Dahlman and G. L. Laws of the State Board of Transportation met at the Live Stock exchange, South Omaha, yesterday moreto soquire into the rates charged by the railroads for transporting live stock. The railroads were well represerted, among those present being Attorneys Mather and Evans of the Rock Island, Bun White of the Elkhorn, Charles Dundy of the Union Pacific, J. W. Orr of the Missouri Pacific and General Manderson of the Burlington. The representatives of the 1479, at the Tenth street crossing. The tree to be placed at the head of the reorganized freight departments were K. C. Morehouse of the Eikhorn, Lyman Sholes of the Omaha, centatives of railroads were: W. B. Cheek of the Burlington, Dave Mahoney of the Union Pacific, J. L. Mortin of the Rock Island and Frank Reed of the North-

It was after II o'clock when the session was called to order, when Secretary Edger-ton made the statement that the purpose was to ascertain what the fair weight of a car of live stock should be. There was no intention. Mr. Edgerton said, to return to th cold system of charges, but simply to find out if the minimum weight was too low.

J. R. Van Boskirk, secretary of the West-ern Nebroska Stock Growers' association stated that the association he represented passed a resolution September 15 condemning the present system of charges, and the action taken by himself and others in the association

The first witness called was W. B. Cheek. general live stock agent of the Burlington, who read a circular sent out by the rall-roads last August giving notice of the proposed chance in the manner of making charges. This was done in order to bring the question in point before the board.

Frank Currie, a shipper from Whitney, Dawee county, testified that under the old system of rates a carload of live stock from gists. to South Omaha formerly cost him \$66. On two or three possions since that time he had paid as high as \$75 per perioad and his cure were not overloaded. An adjournment was then taken until afternoon. STOCK YARDS OFFICERS TESTIFY.

The investigation was resumed in the afterwhen several officers of the Union Stock Yards company, summoned by complaining shippers, testified. The witnesses examined were John A. McShane, traffic manager of the stock yards company, Harry L. Carpenter, auditor of the railroad department of the stock yards; James G. Martin Vice president of the South Omaha Live Stock exchange: E. W. Trode, a shipper from Stearns, S. D., and A. Newbery, a shipper from Cody.

By these witnesses H was sought to show that prior to August 10 of this year it was the custom to load cattle cars from 2,000 to 4,000 pounds heavier than the capacity al-lowed by the rules of the different rallroads. The average weights as testified to were 19 000 pounds for a thirty-foot car. 20,-500 pounds for a thirty-three-foot car and 22,000 pounds for a thirty-six-foot car. This was made more explicit by ascertaining the number of feeders, fat stems, etc., of average fixed weight usually shipped without in jury to the animals. Some of the ques-tions asked pertained to the shipments of bogs and sheep, but in the main cattle shipwere used as the basis for all calcula-

After some time had been spen in hearing the testimony of witnesses General Manderson, appearing for the Burlington, obthen being followed, and said that the railroads we're willing to submit tabulated statements of what had been received since Aumust 10 from the cents per 100 pounds system in order that a comparison with the old rate of dollars per car might be made. General Manderson made the assertion that it could be shown that the railronds were the losers under the existing system when the expenses of weighling were figured in.

Mr. Van Boakirk, who is here as the representative of the Western Nebraska Catti Growers' association, said that Alliance and Lakeside shippers had figures of their own which they insisted upon being offered in evidence. In order to allow those interested time to accumulate facts and figures an adjournment was then taken until 10:30 p'clock

RAILROADERS' POLITICAL LEAGUE. Organized to Secure Recognition of

Their Calling. CHICAGO, Nov. 22.-By changing its name and declaring new principles today, the American Railway league has become a full fielded political organization. Hemeafter it Island, and Robert W. Day and E. B. Boyd will be known as the Railway Employes and Telegraphers' Political League of America. Its proclaimed object is to deal entirely in state end intional politics, chiefly on legis-intive lines. Behind this, however, is the desire and the determination to secure renognition, elective and appointive, for railroad men. This is shown in the fact that a movement is on foot to secure the appointment by President McKinley of a railroad man on the Interstate Commerce commission as successor to Colonel William R.

Two hundred delegates were present from Tilinois, Indiana, Iowa, Kentucky, Kansas, Minnesota, Missouri, New York, Pennsylvania and West Virginia.

EXCURSION RATES FOR FOOT BALL.

One Fare May Be Allowed for the

Thursday Events. There is a strong probability that a onefare rate will be made by the railroads to the foot ball game next Thursday afternoon on the university grounds in this city. The matter will be deficitely decided tomorrow. Among some of the roads there is a dispofrom such cities where at least 100 people will take advantage of the rate. That much of a crowd is expected from Lincoln Thursday, accompanying the Wesleyan university toon at 3 p'clock. Similar crowds may also

come from other nearby towns.

Manager Thomas of the Wesleyan team is very hopeful that a favorable rate will be secured by most of the roads, as he anticipates a good attendance at the game Thanksgiving day.

Raises Grain Rates from lows. MILWAUKEE, Nov. 22.-The Chicago, Milwaukee & St. Paul road has advanced its freight rates from lows points to Minneapolis and St. Paul. The advance is 1 cent on 100 pounds from all the lows stations, except two, and it applies on course grains, including corn, oats and rye in car lois. The rate at present is 17 cents per 100 pounds to Milwaukee and 12 cents to Minneapolis. Milwaukee shippers an advantage of 1 cent per 160 pounds they did not enjoy before.

Interchangeable Tickets Popular. CHICAGO, Nov. 22 - The new form of in terchangeable mileage ticket issued by the western roads is proving very popular. The Sepastian ticket was placed on sale November 15 and 25,000 tickets were ordered printed, as it was thought that they would be sufficient for the demands that would be made. This number is exhausted, however, and another 25,000 have been ordered.

Eastbound Freight Shipments. CHICAGO, Nov. 21 - Eastbound freight shipments for the week ending November 18 amounted to 47,501 tons against 46,470 the previous week and 65,640 last year. It was divided as follows: Purhandle, 9,000 tons; Michigen Central, 2,713; Wabash, 3,839; Lake Shore, 4,659; Ft. Weyne, 5,725; Beltimore &
